

Environmental Policy Statement

AV Gauge & Fixture is committed to continual improvement and prevention of pollution within our organization to ensure that our manufacturing process has a minimal impact on the environment, our employees, visitors, suppliers, and customers.

We will provide and maintain acceptable industry practices and ensure that we are in compliance with all legislation requirements. We will work to eliminate any potential waste through reduction, re-use, and re-cycling.

Management and employees are responsible to act in compliance with legislation and with the company's environmental policy and procedures. All employees are responsible for familiarizing themselves with the policy and procedures.
